

## **Arc-Tronics, Inc.**

# **ROHS, REACH and Mercury Free Compliance Statement**

Arc-Tronics is a “build to print” assembler, an electronics contract manufacturing service provider, primarily of custom populated printed circuit boards (PCBA), wire harness and box build assemblies. Each assembly is manufactured to order and in accordance with the design and material specifications provided by the customer. Arc-Tronics certifies that any additional raw materials introduced during the manufacturing process comply with the ROHS and REACH requirements and are free of Mercury content.

Customers to Arc-Tronics, Inc. are expected to design products whose components can be responsibly sourced. We ask our customers to assist us with customer-directed suppliers’ compliance with ROHS, REACH and Mercury Free due diligence and support supply chain changes required to meet the objective of this policy.
